Free Buprenorphine Training on Thursday, May 4, 2017

OHSU Addiction Medicine faculty will conduct a training to qualify physicians, nurse practitioners, and physicians’ assistants to obtain a Drug Enforcement Agency waiver to prescribe buprenorphine. Buprenorphine is a partial opioid agonist (Schedule III) that is safe for use in primary care. It is highly effective for treatment of opioid use disorder and has a lower risk of overdose than other opioids. Currently, patient demand for buprenorphine greatly exceeds the number of Oregon providers trained to prescribe this safe and effective treatment. The Drug Addiction Treatment Act of 2000 specifies several ways in which providers can qualify to prescribe and dispense buprenorphine for the treatment of opioid use disorder. Completion of a “Half and Half” course meets the 8-hour requirement specified in the Act. One “half” of the course consists of 3.75 hours of on your own training containing five online modules that provide background on the treatment of opioid use disorder. The second “half” of the course consists of 4.25 hours of live training. The online modules will need to be completed prior to attending the live training. After completing the two courses, the provider will be eligible to apply for DEA waiver to prescribe buprenorphine in the outpatient setting.

The training is for physicians, nurse practitioners, or physicians’ assistants; however, other health care professionals (MAs, CADCs, LCSW, etc.) are welcome if they have interest in supporting the adoption of buprenorphine in their offices. You do not need to be a primary care provider in order to participate.

Funding for this initiative was made possible (in part) by Providers’ Clinical Support System for Medication Assisted Treatment (grant no. 1U79TI026556) from SAMHSA. The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services; nor does mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.

Partial funding for this program comes from SAMHSA grant 1H79TI026752-01 to the Oregon Health Authority to expand MAT capacity across Oregon.

Accreditation (MAT Waiver Training)

CME Accreditation
This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of OHSU and AAAP. OHSU is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation
OHSU designates this (second “half” of the course) live activity for a maximum of 1.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

There is no fee for this training, but registration is required. Early registration is recommended due to limited space. To register, email Ms. Marie Payment at payment@ohsu.edu.

Community Forum
OPG’s annual Community Forum is a free public event that offers support and resources to the 73,000 people in Southern Oregon who live with chronic pain. This year’s program will include a keynote address by Dr. Daniel Clauw, an informational health fair, and complimentary soup and salad supper. Event location is the Medford Armory, 1701 S. Pacific Hwy., Medford, OR. Conference attendees are encouraged to attend, as past years’ attendees found it inspiring for duplicating in their own communities. Please register at www._________________.
